

Introducing Kappris PDF Manipulation

With consolidation in the legal software market we are pleased to now include PDF manipulation in our cost effective Kappris offering.

Kappris PDF Manipulation includes

- Full redaction
- Word Search across the PDF
- Bookmarks
- Merge pages & documents
- Extract pages to create a new PDF
- Replace pages
- Add blank pages
- Insert images, text & highlighting
- Drag & drop e-signatures
- Add a stamp & add text to PDFs
- Compare PDFs for deletions & extra text added

Kappris Standard Features

- DocuSign digital signature integration including witnessing with 2-factor authentication
- Multiple e-signatures in Word & PDF documents
- E-signatures with full audit trail
- BI Dashboard on all aspects of Kappris including emails printed
- PMS/DMS integration
- Print Management
- Outlook integration – print last email, attachment handling including zip files, preview attachments before printing, bug reporting and error handling
- Home working printing, ensuring it's the same interface for employees when printing from home, and of course being able to generate reports on what has been printed off site.
